

## Bill Hill – Bassist

For me, the bass bug bit and bit hard in 1984. Hearing that low end groove struck a chord deep inside. I started playing bass on the side and working as a sound tech on the weekends. Before long I had my own group together and was on the way to the next 3 decades of live performances with the top live acts in the upstate New York area. I also released an independent album “*that’s all she wrote*” with the then highly popular band **ALLIANCE** in 1996. This was well received and enjoyed much local airplay.

With bass in hand, I have done 100’s (likely thousands) of gigs. Along with my own bands, I have filled the blanks spots of the calendar as a “fill in” live bass player. My latest group, **THE BAD HUSBANDS CLUB**, is busy as one of upstate New York’s most popular vintage rock party bands. With 80-100 performances per year, bass isn’t just a hobby -It’s in my DNA, a lifestyle!

I’ve played most every style of music at one time or another-metal, classic, funk, and pop-you name it, I’ve done it at least once.

I am currently a **MTD KINGSTON BASSES** endorsed artist. I needed the finest tools of the trade- and the **MTDs** filled that slot perfectly! You can find out more about my love affair with the MTD basses at their website, under the artists tab (link below).
