Quote from Sheila E:

“He is a guitar player who actually used to be in my band years and years ago and he's been playing with me off and on now for the last 15 years at least, if not 20. He's a great guitar player. and one of my favorite guitar players. He's from the Bay Area as well. He understands me, he gets me, and his tone and his melodies, when he plays a solo, they are memorable solos, so when he plays something you can actually sing those lines. He's a great songwriter as well and collaborating with him on this record, I was very, very happy to do so.” ---Sheila E, October 25, 2013.
